RANDY VANCE JOINS KELLER ELECTRICAL INDUSTRIES, INC.

PHOENIX, ARIZONA, July 27, 2011 – Keller Electrical Industries, Inc., the southwest’s leading service provider of industrial electrical motor repair services and a manufacturer, integrator and installer of custom industrial motor controls, announced on July 27, 2011, that Randy Vance joined the Company as a Director of Sales and Engineering Services.

Randy has more than 20 years of experience in the manufacturing, repair and distribution environment. He has a significant background in the electrical power industry including switchgear, bus duct, enclosures, power distribution centers, relay panels, control system design, motor control centers and motor repairs. His professional experience has included large power distribution center and substation projects throughout the United States and Internationally.

Randy is a graduate from the University of Missouri with a B.S. in Electrical Engineering with an Emphasis in Power Engineering and a Minor in Mathematics. He also has a Masters Degree in Business Administration from William Woods University, Fulton, Missouri.

“We are very pleased to attract someone with Randy’s experience and knowledge of electrical systems and product applications to our organization,” said Don Anderson, President and CEO of Keller Electrical Industries. “Randy is well known and a respected professional with significant experience in our industry and will be a tremendous asset for our growing electrical industrial motor repair services division, and our controls manufacturing and engineering design services division.

Founded in 1982, Keller Electrical Industries, Inc. is a leading provider of industrial electrical motor repairs and service, custom motor control manufacturing and distributor of heavy duty motors and equipment. The Company is headquartered in Phoenix, Arizona and provides services throughout the state and southwest including California, Nevada, Utah and New Mexico. More information about the company is available at www.kellerelectrical.com.
