**STEVEN J. KAIN, P.E. JOINS KELLER ELECTRICAL INDUSTRIES, INC
AS DIRECTOR OF ENGINEERING AND PRODUCTION SERVICES**

PHOENIX, ARIZONA, July 2, 2009 – Keller Electrical Industries, Inc., the southwest’s leading service provider of industrial electrical motor repair services and a manufacturer, integrator and installer of custom industrial motor controls, announced on Monday June 29, 2009, that Steven J. Kain joined the Company as Director of Engineering and Production Services.

Steve has more than 31 years of experience in electrical and instrumentation/control system design, construction, start-up and commissioning. His professional design experience included projects for water/wastewater, petroleum-chemical, semiconductor, material handling, mining, municipal and commercial clients. He has been involved with a wide range of projects including industrial and commercial water and wastewater production and treatment plants, SCADA systems, material handling/conveying systems, and numerous electrical and I&C design and construction projects for the mining industry. Steve is a Professional Engineer in multiple states and a graduate from the University of Arizona with a B.S. in Electrical Engineering. Most recently Steve was Manager of Electrical and Control Systems Engineering for M3 Engineering & Technology Corporations Chandler, AZ office.

“We are extremely pleased to attract someone of Steve’s caliber to our organization,” said Don Anderson, President and CEO of Keller Electrical Industries. “Steve is a very well respected professional with significant experience in our industry and will be a tremendous asset for our growing electrical industrial motor repair services division, and our controls, construction and engineering design services division. His significant electrical engineering experience will ensure our customers continue to receive the best quality of service in our industry.”

Founded in 1982, Keller Electrical Industries, Inc. is a leading provider of industrial electrical motor repairs and service, custom motor control manufacturing and distributor of heavy duty motors and equipment. The Company is headquartered in Phoenix, Arizona and provides services throughout the state and southwest including California, Nevada, Utah and New Mexico. More information about the company is available at www.kellerelectrical.com.
